

Quality and Innovation

With the introduction of High Definition Golf™, Interactive Sports Technologies™ set a new standard in accuracy and realism for indoor golf. The system utilizes advanced computer vision technology to provide the most comprehensive and precise shot analysis in the industry. It has the unique capability to measure all critical ball and club parameters including: ball speed, club speed, launch angle, club face angle, ball spin and spin axis at high accuracy. In addition to pioneering computer vision technology for ball and club tracking, Interactive Sports Technologies™ also developed a new method of 3D modeling for High Definition Golf™. This revolutionary process combines high resolution digital images, satellite data and geophysical data into 3D models of golf courses that not only look real—they are completely accurate everywhere on the course. Every tree, bunker and hazard is faithfully reproduced exactly as you would see it if you were playing the actual course!

Multi-Level Appeal

Pure entertainment. Golf instruction. Club fitting. Golf retail sales. Whatever your reasons for investing in the High Definition Golf™ simulator, your expectations will be met and exceeded. Whether you're a professional player on the tour or a weekend amateur, High Definition Golf™ will make you feel like you're teeing it up on the actual 7th tee at Pebble Beach®.

The HD Golf™ home experience enables you to play 18 holes in under an hour. Then kick back and enjoy an HD movie complete with surround sound.

As a teaching professional or club fitter, the incredible depth of High Definition Golf's ball and club tracking abilities will arm you with the data you need to fine-tune your clients' swings with unprecedented precision.

For condominiums, hotels and resorts, including High Definition Golf™ in your amenities package will make a defining statement about the level of sophistication and luxury you provide.

If you are looking to join the many successful indoor Golf Center owners, High Definition Golf™ offers complete solutions including golf center management software specifically designed to make operating your business easy and profitable.

As a golf retailer, High Definition Golf™ will prove to be a solid business decision; drawing patrons and increasing club sales with the HD Golf™ fast, easy and accurate Club Comparison software, paying dividends immediately.
