

HIGH DEFINITION GOLF™

LUXURY HOMES

WELCOME TO HIGH DEFINITION GOLF™ “THE WORLD’S MOST AMAZING GOLF SIMULATOR”

- Looks and plays like real golf – the only thing more realistic is the course itself
- Superior accuracy – with the industries most advanced computer vision ball & club tracking
- Play, practice, compete – extensive selection of world famous championship golf courses, driving ranges, chipping/putting greens, games including; “Closest-to-pin,” and “Longest drive”
- HD Golf™ system can also be used as an HDTV compatible, surround sound theater for movies, sporting events and video games
- Virtually maintenance-free
- Easy-to-use – no need to fiddle with complex systems
- Fully integrated professional teaching/training tools including video swing analysis – all operate seamlessly (plug-and-play) from one computer
- Remote diagnostics – at a push of a button, be in touch with the engineers who built the system
- Easy installation – no sub-floors or room construction required

SUDDENLY YOUR HOME IS A DOORWAY TO THE WORLD'S GREATEST GOLF COURSES

Imagine having a home theater that can turn into your favorite golf course. Here, you will find an escape, and the ultimate way to feed your love of the game of golf, regardless of the weather outside or even the time of day. It can be a system for pure recreation or a powerful tool to tune up your game with a sophisticated series of integrated tools. Of course, your family will love it too, whether they join your foursome for a quick 18 holes at Pebble Beach® or just want to watch a movie on the large screen in full high definition surround sound.

ADVANCED COMPUTER VISION BALL & CLUB TRACKING:

- HD Golf™ pioneered computer vision technology in the golf simulator industry
- HD Golf™ simulators make more measurements, more accurately than any other simulator – by far (e.g. club face angle 0.1° open)
- Play shots the same way you would on the real course

EXPERIENCE THE REALISM:

- Our revolutionary image processing software combines high resolution digital images, satellite data and geophysical data into 3D models to produce a totally realistic indoor golf experience
- HD Golf™ looks and plays like you are on the actual golf course - competitive systems use conventional 3D graphics that look like kids' video games

EASY-TO-USE:

- Very easy to operate via touchscreen – as easy to use as an ATM

INTEGRATED SOFTWARE & ACCESSORIES:

- Tools and accessories including video swing analysis
- All are seamlessly integrated (“plug & play”), easy-to-use, and operate from a single computer and touch screen interface
- No need to purchase multiple systems when one will do

SUPERIOR RELIABILITY:

- HD Golf™ simulators utilize only high quality, business/industrial-rated components including cameras, projectors and computers
- HD Golf™ simulators are famous for reliability, with the most robust, field proven computer vision based ball/club tracking in the industry

NOT ALL GOLF SIMULATORS ARE CREATED EQUAL
